eWiSACWIS Release 1.5 Notes

Activity Notes

3043	Case notes for restricted cases.	If a worker has the security to view Restricted Cases, then they will also now be able to add case notes via search for a restricted case.

Activity Notes

3059	Create Case Work Narrative	When creating a Safety Services narrative from the Create Case Work page, the narrative category is no longer being automatically changed to Corespondence; it now remains as Safety Services.

Activity Notes

4389	Closing the page - save validation	Case note & Provider notes now prompt to save before closing. Correction notes now prompt to save before closing also.

AFCARS

1240	Cannot correct an AFCARS errors	The following changes have been made on the AFCARS Information II tab of the AFCARS Foster Care Exceptions page: 1. Elements 44-46 are now editable whenever any one of them is in error. 2. The worker is now able to select a new First and/or Second caretaker. 3. The Removal Case ID and the Names of the First and Second Foster Caretakers are now being displayed.

eWiSACWIS Release 1.5 Notes

AFCARS

| 3950 | r-cm2102-afcars-error-report | The AFCARS Error Report can now be run for one county. |

AFCARS

| 4114 | Field on tickler table incorrectly populated | The AFCARS batch will no longer populate the worker's id in the AFCARS base tickler as this should only be done on escalated ticklers. |

Approvals

| 3732 | Unassigned supervisor able to approve form | The Legal Documents can no longer be approved from Search and the Approval History page will now be displayed in Read-Only mode from Search. |

Assessment

| 3267 | IAPC template | The appropriate worker is now being displayed on the Initial Assessment - Primary Caregivers template if it was an Assessment that was created via conversion. |

eWiSACWIS Release 1.5 Notes

Assessment

3589	Filter on Allegations Tab of Assessment Window	There is now a filter on the Allegations Tab of the Assessment page specifically related to the A/N Code and Assessment Results fields.

An allegation of A/N that is 'Circumstances Justifying Belief that A/N Will Occur' can only have a finding of 'Likely to Occur' and 'Unlikely to Occur'; therefore, the available options on the Assessment Result drop-down field are now:
1. Likely to Occur
2. Not Able to Locate Source
3. Pending
4. Unlikely to Occur

All other A/N Codes will display:
1. Not Able to Locate Source
2. Pending
3. Substantiated
4. Unsubstantiated

Assessment

3842	modified IAPC	If a Modified IA-PC has been created for a case, any worker can now launch the piece of work regardless of the county of the worker. Milwaukee County is still the only county that can create them, now any county can view them.

eWiSACWIS Release 1.5 Notes

Assessment

3915	Mandated Reporter Letter Changes	The Mandated Reporter Letters have been modified with the following changes: 1. The Worker Name and Title now pre-fills with the worker who initially created the template instead of the worker that is launching the template. 2. When multiple participants are listed on the template, the 'and' is now displaying properly in before the last child's name. 3. When the address information for the mandated reporter is changed on an Initial Assessment, the information on the IA mandated reporter letter will now reflect the address change.

Assessment

4146	R-SM06A-INT-ASSMNT-SITE-ACTVTY-RPT FAILED	The Assessment Site Activity Report had been terminating abnormally. It has been modified to run and complete successfully.

Assessment

4152	Extension window won't accept any dates	A supervisor can now 'Not Approve' an Assessment Extension without the system generating any errors regarding the date of the extension.

Assessment

4451	Mandated reporter Letter from Assmnt- fatal app	Able to launch Manadated Reporter letter, edit and save with out getting a Fatal Application Error

eWiSACWIS Release 1.5 Notes

Automated Messaging

| 3161 | Information in message is not correct | An automated message will no longer be generated when a Protective Services Report is screened out and a case is created. |

Automated Messaging

| 3321 | Assignment emails when email server is down | When the eWiSACWIS system is generating an automated message and the email server is down, a Fatal Application Error message will no longer be displayed. A message will be displayed to the user indicating that the email server is down and the message will have to be sent manually. |

Automated Messaging

| 3802 | All automated messages - sent from | When the eWiSACWIS system sends an automated message, the message body of the email will now display 'eWiSACWIS' before the worker's name to indicate that the email was sent from the application; Sent From: <worker name> will now read as Sent From: <eWiSACWIS/worker name> |

Case Visual Metaphor

| 2672 | Display Restricted Case on Desk Top | The desktop will now display 'Restricted Case' next to a case where the case is restricted. This applies to the Ticklers, Cases, Workers, and Approvals expandos. |

Case Visual Metaphor

| 2990 | Risk Level not on desktop | The Risk Level for the Family Risk Assessment of Future Abuse/Neglect is now being displayed on the outliner when appropriate. |

eWiSACWIS Release 1.5 Notes

CAU Adoption Referral

3575	plcmt. At time of referral field	The 'Placement at Time of Referral ' on the Placement tab of the Adoption Referral page is now pre-filling with the provider that the child is placed with at the time the Adoption Referral is created.

Close Case & Adoption Decree

3720	Cases can close w/out approval of Assemnt	If a case that has multiple Assessments but the last Assessment has not been approved, the case will no longer be allowed to close because of the pending approval.

Close Case & Adoption Decree

4184	Cannot merge cases if case has prev. merge	When a case is being merged and the case has had a previous disrupted closure request, the case will now be allowed to close instead of denying the case closure.

Collect/Determine Eligibility

2859	Med Cert page- second street address gives FAE	The second street address field (for street name) no longer will accept more than the database field length of 12 characters. This change results in the user no longer receiving a Fatal Application Error.

Collect/Determine Eligibility

3704	Template updateable via Search	The following templates that are launched from the Eligibility page are no longer editable and display as Read-Only via search. 1. Financial Assessment Referral (CFS-2123) 2. Title IV-E Out-of-Home Care Income and Resource Determination (CFS-205)

eWiSACWIS Release 1.5 Notes

Collect/Determine Eligibility

| 3829 | Duplicate Elig. Rows after Voiding Determination | When an Eligibility worker selects the 'Void Determination' from the Options drop-down field on the Initial Determination tab of the Eligibility page, the Go button will no longer be available. |
| | | Previously it allowed the Go button to be clicked again which was causing the system to create multiple Eligibility records. |

Collect/Determine Eligibility

| 3852 | Voided Eligibility | When an Eligibility record is voided the 'Date Completed' field is no longer enabled. |

Collect/Determine Eligibility

| 3867 | Cannot see which redet is being printed | When a Redetermination is printed, the entire list of Redeterminations are now displayed on the printout. And when printed in landscape mode, no data is being cut off. |

Collect/Determine Eligibility

| 4273 | Eligibility | The Save button now becomes enabled on the Adoption Eligibility page after viewing the template. |

CPS Reports

| 246 | Case Participant should not have been created | Now when Service Intakes and Protective Services Reports are created or linked to an existing case, particpants with only a role of 'Witness' will no longer be carried over to the case as a case participant. |

eWiSACWIS Release 1.5 Notes

CPS Reports

| 1247 | Link PS report to Pre-Adoptive Child case | For Pre-Adoptive Child or Guardianship cases, the system now allows a Services Intake to be linked to the the case as long as the intake only has one participant and that participant is also in the case. |

Document Plans

| 3011 | PP Placement prefilling Error | The Permanency Plan will now display placements correctly if they have been closed for reasons of TPR, Birthday Batch or Parent Agency Change. The Begin Date now comes from the 1st placement that was closed and all other data (end date, end reason, etc.) now come from the 2nd placement. |

Document Plans

| 3030 | Birthday Batch showing up as termination reason | When a Plan is being terminated, the reason of 'Birthday Batch' will no longer be an available option. |

Document Plans

| 3195 | Case Progress Evaluation Template | When changes are made to the Safety/Case Planning tab for a Case Progress Evaluation and the plan is approved, the values on the tab are now being saved and displayed properly on the template. |

eWiSACWIS Release 1.5 Notes

Document Plans

| 3718 | Launch PP before Save should be on Banner | When a Permanency Plan is copied over and the worker attempts to save the plan without launching the template, a message is displayed stating that the Perm Plan template must be launched before PP can be saved and an error icon now appears on the eWiSACWIS banner. |

Document Plans

| 4110 | 'Not Approve' Adoption Case Plan | Supervisor no longer gets a Fatal Application Error when selecting the 'Not Approved' option from the Approval tab. |

Document Plans

| 4237 | Goals deleted from edited case plan | Able to edit case plan, goals remain. |

Foster Care/Out of Home Placements

| 1833 | Missing functionality with Notifications and Narr. | When a notification is sent for the Out of Home Placement Notification page, a case note is automatically created to indicate which notification was sent, for which case participant and who was the recipient. |

Foster Care/Out of Home Placements

| 2901 | OH Placement and Collaterals | A collateral is no longer displayed in the Primary and/or Secondary Caretaker drop-down fields when creating an Out-of-Home Placement. |

eWiSACWIS Release 1.5 Notes

Foster Care/Out of Home Placements

| 3232 | FC Rate Setting approval via Search | The Foster Care Rate Setting can no longer be edited or approved via Search; the Rate Setting and Approval History pages and the template will open in View Only mode from Search. |

Foster Care/Out of Home Placements

| 3765 | 2 removals in a row error on OHP window | When an Out-of-Home placement is created, the initial removal from placement is now being set for the appropriate placement for a child. |

Foster Care/Out of Home Placements

| 3932 | Able to change placement dates on approved plcmnts | Once an Out-of-Home placement is approved, the 'Placement Begin Date' and 'Date Removed from his/her home' are no longer editable.

Once an In-Home Service placement is approved, the 'Placement Begin Date' and 'Placement Status' are no longer editable. |

Foster Care/Out of Home Placements

| 3933 | Can't Uncheck Override PA checkbox | Override Parent Agency checkbox defaults and saves correctly on the OOH and IH Service page. |

Gather/Monitor/Request Reimbursement

| 3752 | FM04a05 - Expected Days of Care Report | The percentages for the Expected Days of Care are now computing correctly on the Eligibility Based Days of Care report. |

eWiSACWIS Release 1.5 Notes

Gather/Monitor/Request Reimbursement

| 3753 | FM04a10-R-payment-based-days-of-care | The Payment Based Days of Care report now displays the percentage as a 4 digit number. |

Gather/Monitor/Request Reimbursement

| 3969 | Wrapround/FPI/YES Changes-Online | The outliner (worker's desktop and Search page) will display a new label called 'non-system-disbursed' for non-system-disbursed payments to indicate that they will not be sent for check processing. |

On the Maintain Service Type and Rate page, the label 'Emergency/Contract Payment' has been renamed to say 'Non-System-Disbursed Payment'.

More details about the new Wraparound/FPI/YES changes will be presented at the upcoming PAW/TAW meeting.

Gather/Monitor/Request Reimbursement

| 3972 | Wrapround/FPI/YES Changes-Batch and Reports | A new report, which provides a comparison of the system-disbursed and the non-system-disbursed Wraparound/FPI/YES payments and overpayments by child, will be distributed to the FPI/YES counties. |

More details about this new report will be presented at the upcoming PAW/TAW meeting. If you start receiving this report, please ignore it until then.

Home Inquiry

| 3744 | Home Inquiry Fatal Application | A Home Inquiry type of 'Relative ICPC' can now be screened in without the system generating a Fatal Application Error. |

eWiSACWIS Release 1.5 Notes

Home Provider

| 3547 | can't make provider inactive | A Private Provider can now be inactived without the system flipping the status back to 'Active' when the record is saved. |

Home Provider

| 3749 | Foster Family Support eval/revision template | The Foster Family Support Plan/Revision can now be launched from the Home Provider page without the system generating the following message:
Word cannot open the document. Try one or more of the following: On the File menu.. |

Home Provider

| 3754 | Parent Agency Change | When a Parent Agency (PA) changes and there is open placement with the provider, the appropriate end date will be given to each placement. This will ensure that no placements are closed with a Placement End Date that is prior to the Placement Begin Date.

If the PA end date is before the placement begin date, then the placement end date will be set to the placement begin date. Otherwise, the placement end date will be set to the PA end date. |

Home Provider

| 3797 | Intake/Inquiry search page 9 digit zip- Fatal App | The system now accepts a 9 digit zip code and the Fatal Application Error is no longer being displayed when saving the Home Inquiry. |

eWiSACWIS Release 1.5 Notes

Issue/Reconcile Checks

| 4208 | FM0203 - Monthly Payment report is inaccurate | The Monthly Payments repor has been modified to display all payments including ones that use new placement statuses. In addition, it now differentiates between Court Ordered and Non-Court Ordered. |

Legal Consult

| 3779 | template mapping | The worker's name on the Adoption Acceptance Letter (CFS-2288) has been modified and is now editable on the template and is no longer a pre-filled field. |

Legal Consult

| 4334 | sm09_petition_transfer_lgl_cus_ sw.doc | The Petition for Transfer of Legal Custody template is now available and is accessible off of the Legal Documentation page. |

Licensing Home Providers

| 4149 | Reactvt copies Services from Various hist. licencs | When a provider's license is reactivated, the appropriate services are now being displayed on the license. Previously, if the provider had Treatment Foster Home - Contracted Services on a previous license, they were also being carried over to the reactivated license and should not have been. |

Licensing Private Providers

| 3673 | Designated County for Private Providers | Private Providers no longer display a designated county on the desktop or from Search. |

eWiSACWIS Release 1.5 Notes

Maintain Case

1137	Add Checkbox to restrict/unrestrict case	A supervisor with the appropriate security authorization can now restrict or unrestrict a case via a checkbox on the Maintain Case page. A supervisor can only check the Restricted checkbox if they are not a participant in the case and they belong to a management job class where the approval level is greater than 1.

This functionality will also be available from the case search page if in addition to the above criteria, the supervisor has the security to view restricted cases in their User Group security.

In additon, the words 'Restricted Case' will be displayed next to the case name on both the worker's desktop and via Search.

Maintain Case

3217	Problem with Deactivation	Workers can now deactivate or reactivate a child from one case if they have an open placement in a different case.

Maintain Case

3726	Spell Check Problem	Users will no longer be able to exceed the character limit of a field in eWiSACWIS by entering too much text into the Spell Check window. If the amount of characters in the Spell Check window exceed what the field can accept, the extra characters will now be deleted.

Maintain Case

eWiSACWIS Release 1.5 Notes

Maintain Case

3937	Batch failed last night	The Ongoing Services Activity batch now runs successfully.

Maintain Case

4109	b-sm04a-case-part-remove	The Case Participant Removal batch now runs successfully and removes the participant from the case.

Manage Trust Accounts

4193	fm0705-kids-daily-update	The KIDS Daily batch is now producing the correct log file name; b-fm0705-kids-daily-update.

Office Automation

3773	Document processing	Occasionally, templates were displaying bookmark values in the wrong bookmark on the template. This was a problem caused by MS Word and has been resolved via the eWiSACWIS document processing.

Office Automation

4161	Delin Assmt & Court rpt, fatal app	When a participant is created in a Services Intake, each person record is being created with the 'Interpreter Required' flag on the person management record equal to 'N' or unchecked instead of being blank. This now allows the Delinquency Assessment and Court Report (CFS-2317) to be created without the system generating a Fatal Application Error.

eWiSACWIS Release 1.5 Notes

Person Management

| 4145 | Age Adopted should be req'd if Prev. Adptd = Yes | When selecting 'Yes' for the 'Child was Previously Adopted' field on the Additional tab of the Person Manangement page, an age must be entered in the Age Adopted field. If the user attempts to save the record without an age selected, then the following message will be displayed:

If Child Previously Adopted = Yes, an age must be selected in the Age Adopted Field. |

Post Adoption Activity

| 3340 | order of Grand Search results | The Adoption Grand Search page has been modified to list the results in alphabetical order regardless of the name being in Upper case or Mixed case. |

Process Payments & Purchase Requests

| 3675 | Episode Driven Batch Program | Duplicate payments are no longer being generated when the end date of the previous month's payment is changed. |

Process Payments & Purchase Requests

| 3935 | 'No data found' on placement field | The Placement field on the Payment page will now display appropriately when the Wrap button is clicked, the payment is saved and then reopened. |

eWiSACWIS Release 1.5 Notes

Provider Address Maintenance

| 3458 | Need to save Apt, Ext fields w/ NO spaces | If a worker enters spaces in an apartment number field, the system will automatically eliminate the spaces so that other process such as mailing labels will display the address correcty. |

Report Selection & Distribution

| 3846 | reloading prev. day rpts does Ctrl-M job stream | A previous days reports can now be loaded via the Control-M job stream. |

Report Selection & Distribution

| 4009 | Changing Cnty on Security page deletes changes | When changing the county on the Maintain Security - by Report page, a message will be displayed to prompt the user to save their changes. |

Report Selection & Distribution

| 4013 | Changes are lost if searching out a new person | When changing the worker on the Maintain Security - by User page, a message will be displayed to prompt the user to save their changes. |

Report Selection & Distribution

| 4183 | Duplicate Report IDs | There are no longer any duplicate Report ID's and workers now have access to all the reports they are assigned to. |

eWiSACWIS Release 1.5 Notes

Search

| 3200 | Issues with View All Sites user group restriction | The 'View All Sites' checkbox for a user group is now functioning correctly. The check box is used to restrict which case records can be searched for and viewed from the Case and Person tab on the Navigational Search page based on the Site of the case and the worker. |

Search

| 3634 | Accessing templates via Search | The Placement Notifications, Rate Setting Notifications and Notices History pop-up pages do not have the Insert or Save buttons enabled and the templates are opened in Read-Only mode when accessed from the Search page. |

Search

| 4141 | Provider Search | Clicking the 'Next' hyperlink when searching providers, now displays the providers in alphabetical order. |

Search

| 4163 | Case Search | When a case is created from an intake, the case name is no longer created with trailing spaces. This was causing the case to be displayed when searching for the case with 'Sounds Like' checked but not when it was unchecked. Now it displays in search with and without 'Sounds Like' checked. |

eWiSACWIS Release 1.5 Notes

Search

| 4185 | case search | When searching a case, the 'Sounds Like' checkbox is now working and displaying cases appropriately. In addition, the cases are displayed in alphabetical order regardless of the name being in upper case or mixed case. |

System Help & Policy

| 1126 | Help File for IAPC anchor | The Anchors for Adult Functioning for the Initial Assessment-Primary Caregivers have been updated on the page and in the help files. |

eWiSACWIS Release 1.5 Notes

Ticklers

2595	Perm Plan Hearing and Review ticklers	The Permanency Plan Hearing and Review ticklers will now be generated when the child's most recent Out-of-Home placement does not have a discharge and the item being created is the most recent Review or Hearing (i.e., Admin Review Meeting; Legal Perm Plan Review, or Legal Perm Plan Hearing).

If the most recent Perm Plan Hearing (annual) is being created, then the Hearing and Review ticklers will be created as follows:
1. Create Hearing tickler (verified hearing date + 365 daysr)
2. Create Perm Plan Review tickler (verified hearing date + 180 days)

If the most recent Perm Plan Review (Legal) or Admin Review Mtg (Planning) is being created, then the Hearing and Review ticklers will be created as follows:
1. Create Hearing tickler (verified hearing date OR completed date scheduled + 180 days)
2. Create Perm Plan Review tickler (verified hearing date OR completed date scheduled + 365 days)

Detailed criteria for searching for Meeting and Legal Status records or for creating ticklers is as follows:
A Legal Status with a legal action of 'Permanency Plan Hearing (annual) is entered, a Hearing date is entered, the verified checkbox is checked,
OR, an Administrative Review Meeting is entered with the Meeting Completed checkbox checked.
OR a Legal Status with a legal action of 'Permanency Plan Review (6 months)', a Hearing Date is entered, and the verified checkbox is checked.

eWiSACWIS Release 1.5 Notes

Ticklers

| 2871 | 6 month rate setting | When an Out-of-Home Placement is created and there is an associated 6-Month Rate Setting Tickler, it is now being deleted when appropriate. |

Ticklers

| 3858 | Wrkr from whom orig. tickler comes not displayed | A Supervisor's escalated ticklers now display the workers name on the desktop so that the supervisor knows which worker is responsible for completing the work for the tickler. |

Ticklers

| 4200 | Need additional edit on "Reassign All" | The following validation error message is now displayed when a supervisor attempts to reassign a worker's case load to the same worker:

Cannot reassign all of the worker's assignments to themselves. |

Voluntary Services Referrals

| 4090 | Service Intake Summary | The Green county version of the Service Intake Summary (CFS-2247-23) now displays and pre-fills the participants correctly. |

Voluntary Services Referrals

| 4550 | Services Intake database updating | Now when doing a service intake, the row will be inserted in County_Person_Cross_Ref table if a county person ID was included with the Intake Participant information, just like PS Report. |

eWiSACWIS Release 1.5 Notes

Worker Assignment

4002	Pre adoptive name showing on assgnmt detail	When viewing an assignment for an Adoptive Case, the name displayed is now the adopted child's name vs. the child's name prior to adoption.

Worker Assignment

4302	Reassign All Functionality	The following message is now displayed when a supervisor attempts to reassign a worker's caseload and a reassignment of cases was already initiated but has not been completed by the nightly batch: This woker's assignments have already been reassigned to <Worker's Name>. Are you sure you want to reassign them to the current worker selected?
